

Senior Software Engineer – Java | Spring Boot | Microservices | Cloud

Location: Bangalore / Chennai / Hyderabad / Remote

Experience: 5–8 years

Employment Type: Full-time

About the Role:

We are looking for a highly motivated and experienced **Senior Software Engineer** to join our engineering team. The ideal candidate should have a strong background in **Java**, **Spring Boot**, and **Microservices architecture**, along with hands-on experience in **CI/CD pipelines** and **cloud-native application deployment using Kubernetes**.

Key Responsibilities:

- Design, develop, and maintain scalable and high-performance backend services using **Java and Spring Boot**
 - Build microservices that are secure, performant, and resilient
 - Collaborate with frontend developers, DevOps, and product teams to deliver end-to-end solutions
 - Deploy and manage applications on **Kubernetes-based cloud environments** (AWS, GCP, or Azure)
 - Implement and maintain **CI/CD pipelines** using tools like Jenkins, GitLab CI, or GitHub Actions
 - Write clean, maintainable, and well-tested code
 - Participate in code reviews, system design discussions, and mentor junior developers
-

Required Skills:

- 5–8 years of hands-on experience in **Java** (Java 8 or above)

- Strong knowledge of **Spring Boot** and related frameworks
 - Solid understanding of **Microservices architecture and RESTful APIs**
 - Experience with **Docker and Kubernetes**
 - Familiarity with **CI/CD tools** like Jenkins, GitLab CI, or similar
 - Working knowledge of **cloud platforms** (AWS, GCP, or Azure)
 - Proficient in version control tools like Git
-

Good to Have:

- Experience with monitoring and observability tools (Prometheus, Grafana, ELK stack)
 - Exposure to secure coding practices and OAuth2/JWT authentication
 - Knowledge of message brokers like Kafka or RabbitMQ
-

Educational Qualification:

- Bachelor's or Master's degree in Computer Science, Engineering, or related field
-

Why Join Us:

- Work on high-impact, large-scale projects in a fast-paced environment
- Collaborate with some of the brightest minds in cloud and backend development
- Flexible work culture and remote-first mindset
- Competitive compensation and continuous learning opportunities
